

FLEXIBLE GIFT ANNUITY

A gift that provides a “guaranteed paycheck” for life!

How It Works

- You transfer cash or securities to {Our Organization}. Our required minimum gift is \$_____.
- You select a range of dates in the future (window) when you will want {Our Organization} to begin paying you, or up to two annuitants you name, fixed annuity payments for life.
- During the payment window, you request the start of payments.
- Beneficiaries are recommended to be at least {AGE ____} to begin receiving payments and must be at least {AGE ____} to fund the gift.
- The remaining balance passes to {Our Organization} when the contract ends to fund a gift to the program that you are passionate about supporting.

Benefits

- Deferral of payments permits a higher annuity rate and generates a larger charitable deduction. The deduction is calculated based upon the first date in your window on which you could elect to start payments.
- You can target your annuity payments to begin when you need them, such as retirement.
- The longer you elect to defer payments, the higher your payment will be.

For more detailed information, please contact us so that we can assist you through every step of the process.
