

GIFTS OF MINERAL INTERESTS

*“Mineral rights” are the ownership of the minerals below a parcel of land.
Do you own any? They are easy to give.*

How It Works

- You donate mineral interests to {Our Organization}.
- We hold the interest and collect the proceeds, or we sell it and apply the proceeds to make a gift to the area of {Our Organization} that you are passionate about supporting.

Benefits

- You make a gift that benefits {Our Organization}.
- You make the gift outright or you may use it to create a life income gift that will pay you or your beneficiaries income for life.
- You are eligible to claim a tax deduction based on the mineral interest's fair-market value at the time of the gift.
- The value of the assets will be removed from your taxable estate.

For more detailed information, please contact us so that we can assist you through every step of the process.
